GCG
DATA CENTERS

READY TO DEPLOY.
RIGHT ON TIME.

From Power Whips to Label Kits—GCG helps you deliver with speed and precision.

When failure isn't an option, you need more than just a vendor—you need a partner who understands the complexities of your application and delivers reliable solutions at scale. **GCG Assembly serves Hyperscalers and Multi-Tenant/Colocation data centers with engineered cable assemblies that meet exacting standards for quality, durability, and performance—backed by deep testing capabilities and decades of real-world expertise.**

THE PARTNER THAT KEEPS YOU AHEAD

GCG extends your team – assembly expertise, exactly when you need it.

In today's constrained labor market, many customers face a make-vs-buy decision. While they have the capability to do this work internally, outsourcing enables them to keep their skilled workforce focused on their highest priorities.

CAPACITY MULTIPLIER MAKE vs. BUY

MAKE	BUY
Hiring	Kitting
Training	Labeling
WIP queue	Assembly
Rework risk	Logistics
Internal labor, longer lead times, risk of delays	

EXTEND YOUR CAPACITY— WITHOUT ADDING HEADCOUNT

Extensive Testing for Real-World Reliability

To ensure GCG's custom-built Power Whip solutions are job-site ready, our team goes through factory-controlled testing and rigorous QA to help prevent failures and speed up your time to market.

Electrical Testing to meet your safety standards
• Continuity of phases and ground
• Dielectric withstand (hi-pot)
• Insulation resistance

Get started with our Power Whip Configurator

Speed and Precision. Delivered.

We understand the urgency that drives your business. When you need Power Whips or tens of thousands of labels, to finish your job, you need them fast—and you need them right.

Our pre-organized label kits eliminate hours of printing and sorting, making deployment across your data center fast and error-free.

GCG can go from quote to product delivery in days, not weeks or months.

No delays. No surprises.

Speed wins, and we're built to deliver.

LET'S BUILD WHAT'S NEXT—TOGETHER

Contact GCG today to see how we can streamline production, enhance reliability, and reduce downtime in your operations.
