

Built on Expertise. Driving Renewable Innovation.

Turning Insight Into
Smarter Energy Solutions

We Don't Just Power Projects. We Engineer Possibility.

At Paige Renewable Energy, we're more than a supplier—we're your partner in building the future of utility-scale solar, wind, and battery storage. Our mission is to deliver reliability, efficiency, and innovation at every stage of your renewable energy project.

Performance That Goes Beyond the Cable

We help our customers work smarter, install faster, and maximize long-term system performance. Here's how:

- **Expert Engineering Support**

Our in-house renewable energy experts guide you from concept to completion, reviewing designs, identifying efficiencies, and engineering custom solutions for your project's unique requirements.

- **Value-Added Services**

Paige's comprehensive suite includes kitting, labeling, pre-packaging, and logistics coordination—streamlining installation, reducing labor costs, and ensuring every product arrives ready for "plug and play" deployment.

- **Inventory & Rapid Delivery**

With over \$20M in stock and 40+ facilities nationwide, we offer next-day shipping and real-time order tracking to keep your project on schedule.

Solutions for Every Stage of Utility-Scale Renewables

- **Medium Voltage & Photovoltaic Cables**

Reliable power distribution and efficient energy flow for solar, wind, and battery storage projects.

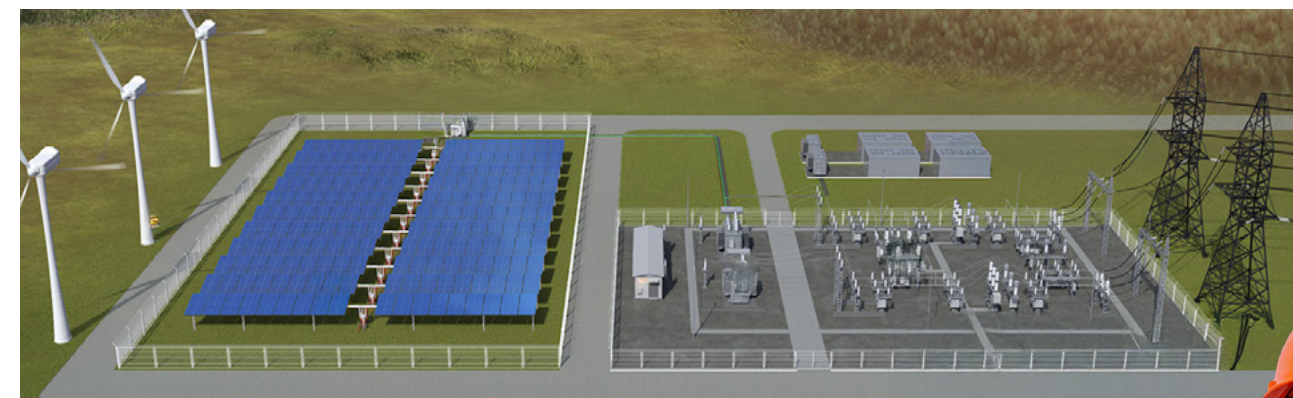

- **Custom Harnesses & IPCs**

Engineered for seamless integration and long-term performance in demanding environments.

- **Fiber Optic & Communication Cables**

High-speed, secure data transmission for real-time monitoring and control.

Value-Added Services: Engineering, Kitting & Logistics

- **Engineering Support:**

Personal design review, AutoCAD/Blue Beam deliverables, and value engineering to reduce costs and material waste.

- **Kitting & Logistics:**

Custom kits, pre-packaged and labeled for each site quadrant, enable faster, safer installs and reduce errors.

- **Project Coordination:**

Strategic shipping and delivery mapped to your schedule and preferences, with support from project start to finish.

Powered by Expertise. Building Tomorrow Together.

With over 80 years of combined experience, Paige Renewable Energy delivers proven solutions and strategic guidance for complex projects. Partner with us to transform vision into reality and lead the future of renewable energy.
